

Developers Wiki Overview

Welcome to the Developers Wiki site for the OpenDNSSEC Project!!

On this Page

- [Source Code & Packages](#)
- [Project Management & Processes](#)
- [Meetings](#)
- [Requirements](#)
- [Design & Architecture](#)
- [Documentation](#)
- [Mailing Lists](#)
- [Archived TRAC wiki](#)

Source Code & Packages

- The source is available for download from the [Download](#) page on the OpenDNSSEC.org web site. This page also has instructions on how to access the latest code via the Subversion repository.
- The source repository is also currently available to browse on [GitHub](#).
- We thank a number of package builders that are motivated to build and maintain packages for our source code releases [for some operating systems](#).

Project Management & Processes

The project plan and process documentation for OpenDNSSEC is [available here](#).

Meetings

Meeting agendas and reports are [available here](#).

Requirements

Requirements for the current version are [available here](#).

Design & Architecture

Design and architecture documents can [be found here](#).

Documentation

The latest [OpenDNSSEC Documentation](#) describes how to install, configure and run OpenDNSSEC.

Mailing Lists

- The user's [mailing list](#)
- The developer's [mailing list](#) (*only open for developers*)

Archived TRAC wiki

The wiki was previously hosted on the project TRAC site. This is now deprecated but an archive of the site is [available here](#).
